EXPERIENCE

Chainscore Labs | Software Development Engineer

July 2024 – Present | Pune, India

- Designed and working **Redux Toolkit** state management for a large-scale staking, casino, and sports-betting platform, structuring 41 feature slices and 55+ typed **async thunks** with **centralized error handling** and **persistent** auth, wallet, and settings state and built frontend UI and features end-to-end with React.js. .
- Built the TelosX Layer-1 blockchain exchange **frontend** using **Next.js** and **TypeScript**, including **landing page** design, **Auth0** authentication, and crypto **swap/spot-margin** trading UI with **real time Binance API data**.
- Built an advanced real-time **gaming leaderboard** with **Redis caching** for leaderboards, odds, and game-state data, reducing database load and improving response times for high-traffic read-heavy requests.
- Built a real-time notification system using **Node.js/Express.js**, REST APIs, and **Server-Sent Events (SSE)**, enabling low-latency live updates across enterprise workflows.
- Developed **Golang - based data-layer services using Kafka** and **ClickHouse** to process high-volume trading events and route market/order data to **persistent storage and data-warehouse systems** for real-time analytics and historical reporting.
- Building on a high-performance **SDK in C/Golang** for the Polkadot-JAM ecosystem, focusing on low-level system design, instruction handling, and virtual machine integration.

Elevatifier | Full Stack Intern

April 2024 – June 2024 | Remote

- Built a role-based admin platform UI/UX for an edtech company to manage courses, users, and enrollments using React.js.
- Implemented end-to-end video upload and streaming with **AWS S3**, optimizing playback for concurrent student access, and integrated **Razorpay** course payments with **webhook** handling for confirmation.

ACHIEVEMENTS

- Open-source contributor to **JAM (Join-Accumulate Machine)** at **Chainscore Labs** - Gavin Wood's major Polkadot upgrade defined in the **JAM Gray Paper**; designed the off-chain **auditing pipeline** with VRF-based announcements, judgment publication, and adaptive tranche logic scaling to **1,023 validators** over **QUIC/TLS 1.3**, processing **10,230 audits/slot** with **99.9%** data availability.

PROJECTS

MergeMe | TypeScript, Node.js, Express.js, PostgreSQL, Drizzle, Socket.IO, Razorpay, AWS EC2, Resend [\[Live \]](#) [\[GitHub \]](#)

- Architected a full-stack networking platform for developers and corporate professionals, featuring swipe-based matchmaking, real-time **Socket.IO chat**, and a normalized PostgreSQL + Drizzle ORM schema powering feeds, connection requests, and chat threads with type-safe end-to-end contracts and **Razorpay payment** integration.
- Built 15+ REST auth endpoints secured with **access/refresh JWT** rotation, Google and GitHub **OAuth**, **Resend** email verification, deployed on **AWS EC2** behind Cloudflare (DNS, CDN, SSL) with domain a name.

Quiver | QUIC-Native Distributed Pub/Sub Message Broker | Python, asyncio, aioquic, Ed25519, QUIC/UDP [\[GitHub \]](#)

- Built a **distributed pub/sub message** broker from scratch using the **QUIC** protocol (RFC 9000) over UDP.
- Replaced traditional **TCP/WebSocket** messaging with multiplexed, **encrypted streams** for low-latency delivery.
- Designed zero-trust mTLS auth with self-signed **Ed25519 identities in X.509 SAN fields** — no CA or passwords.

SKILLS

- Languages:** C++, Golang, JavaScript, TypeScript.
- Frameworks/Libraries:** Next.js, React, Redux Toolkit, Node.js, Express.js, GraphQL, gRPC.
- Databases/ORM:** PostgreSQL, MongoDB, Redis, GORM, Prisma, Drizzle.
- Tools:** Linux, Git/GitHub, AWS (EC2, SQS), Firebase, Docker, Cloudflare, CI/CD.
- AI & Automation:** OpenAI API, Claude API, MCP, AI-assisted development (Claude, Cursor, Codex).
- Testing:** Jest, Unit Testing, Integration Testing, API Testing.
- Familiar With:** NestJS, Python, FastAPI, React Native, Expo.

EDUCATION

Kamla Nehru Institute of Technology

Bachelor of Technology in Information Technology | **CGPA: 8.4**

August 2020 - June 2024 | Lucknow, India
